Request to Invoke or Revoke FERPA Block of Directory Information

The Family Educational Rights and Privacy Act (FERPA) of 1974 is a federal law that protects the privacy of student education records. "Education records" are "those records, files documents, and other materials which 1) contain information directly related to a student; and 2) are maintained by an educational institution. Generally speaking, FERPA allows the University to disclose education records or personally identifiable information from education records in the following circumstances: with the written consent of the student, if the disclosure meets one of the statutory exemptions, or if the disclosure is directory information and the student has not placed a hold on release of directory information.

Under FERPA, directory information relating to the student is considered public information unless the student formally requests in writing that it be kept confidential. This form serves to process such requests. This form may also be used to remove the privacy block on directory information. Public information that cannot be restricted includes whether the individual was ever enrolled and degrees awarded.
